13 March 2020

**ATTENTION :** Corona Virus information

Please take note of the following:

- Apart from the Corona virus there are a lot of other contagious illnesses as well!!
- A permanent staff member has always been and still is cleaning our toilets every day.
- There are always wash basins and / or sanitizers available everywhere.
- Parents are not allowed to send their ill children to school and will be called to come and pick them up.
- Parents need to take responsibility to be cautious at home as well. Written confirmation from a registered practitioner must be presented to the school.
- Schools always receive important information from the WCED on how to handle contagious illnesses – including the Corona virus.
- Schools are only allowed to close or stop any activities if CONFIRMED TRUE information was received by the WCED from the specialized organization working with contagious illnesses, who will then order a school to close until further notice.
- We have a trained health and safety officer permanently at the school, which constantly monitors all aspects of health and safety.

Please see our policy on HIV and other contagious illnesses on this website.

Kind regards

Mrs. M L Stander (Principal / Owner)
